

Health & Safety File Request Form Sewer Diversion (S185)

Filling out this form

This form can't be filled out online, so before you start to complete it, please make sure you follow these steps:

1. Download the PDF to your PC (Save it locally, for example on your desktop)
2. Open it using [Adobe Acrobat Reader](#), and fill it out
3. Save the completed version
4. Email it to us at technical.sewerage@yorkshirewater.co.uk

Health & Safety File Request Form (S185)

File reference

Application reference

Further to changes that were made to the Health and Safety regulations in April 2015, it is now a requirement for Yorkshire Water to receive information contained within your Health and Safety file for each site that incorporates a sewer diversion.

We need these details to be completed so Yorkshire Water are aware of any risks associated with the future operation and maintenance of the diverted assets and any potential site-based health and safety hazards.

We only need the information relevant to the drainage system and associated assets that have been diverted.

Please only complete, sign and return this form – do not send in copies of the Health and Safety file for the development site.

Please ensure that the form below is completed by the Principal Designer and is signed and dated.

3. Declaration

I request that Yorkshire Water process my request based on the information I have provided and confirm all information is correct to the best of my knowledge.

I agree that Yorkshire Water may use the supporting information provided for any purpose connected with this request and with the company's statutory Sewerage and Water undertakings.

I can confirm that this request form has been checked by myself as the Principal Designer and that the sewerage system and associated assets have been diverted to the relevant standards applicable to the approved design.

By ticking this box I agree to the above declaration

The following is to be completed and signed by the Principal Designer:

Print name

Signature

Date | |
