Dear friend

I hope you are well and enjoying school. What have you been doing since you last wrote to me? Are your family well?

We have had some exciting news here at school. Our old toilets have been replaced with new facilities. We are all really pleased about this as they are so much cleaner and we now have separate toilets for girls and boys. We also now have hand washing basins with clean running water which means I will no longer miss school due to illness.

Before these were built many of my friends had been poorly as we were unable to wash our hands properly after going to the toilet. My friend was sick for three weeks the last time.

We are all hoping these new facilities will make a huge difference.

Yours sincerely,

Hanna
