**Water helps with everything. It makes it rain, it makes the rivers flow and it makes lots of big puddles to splash in. Splish splosh. What else do you think water can do?**

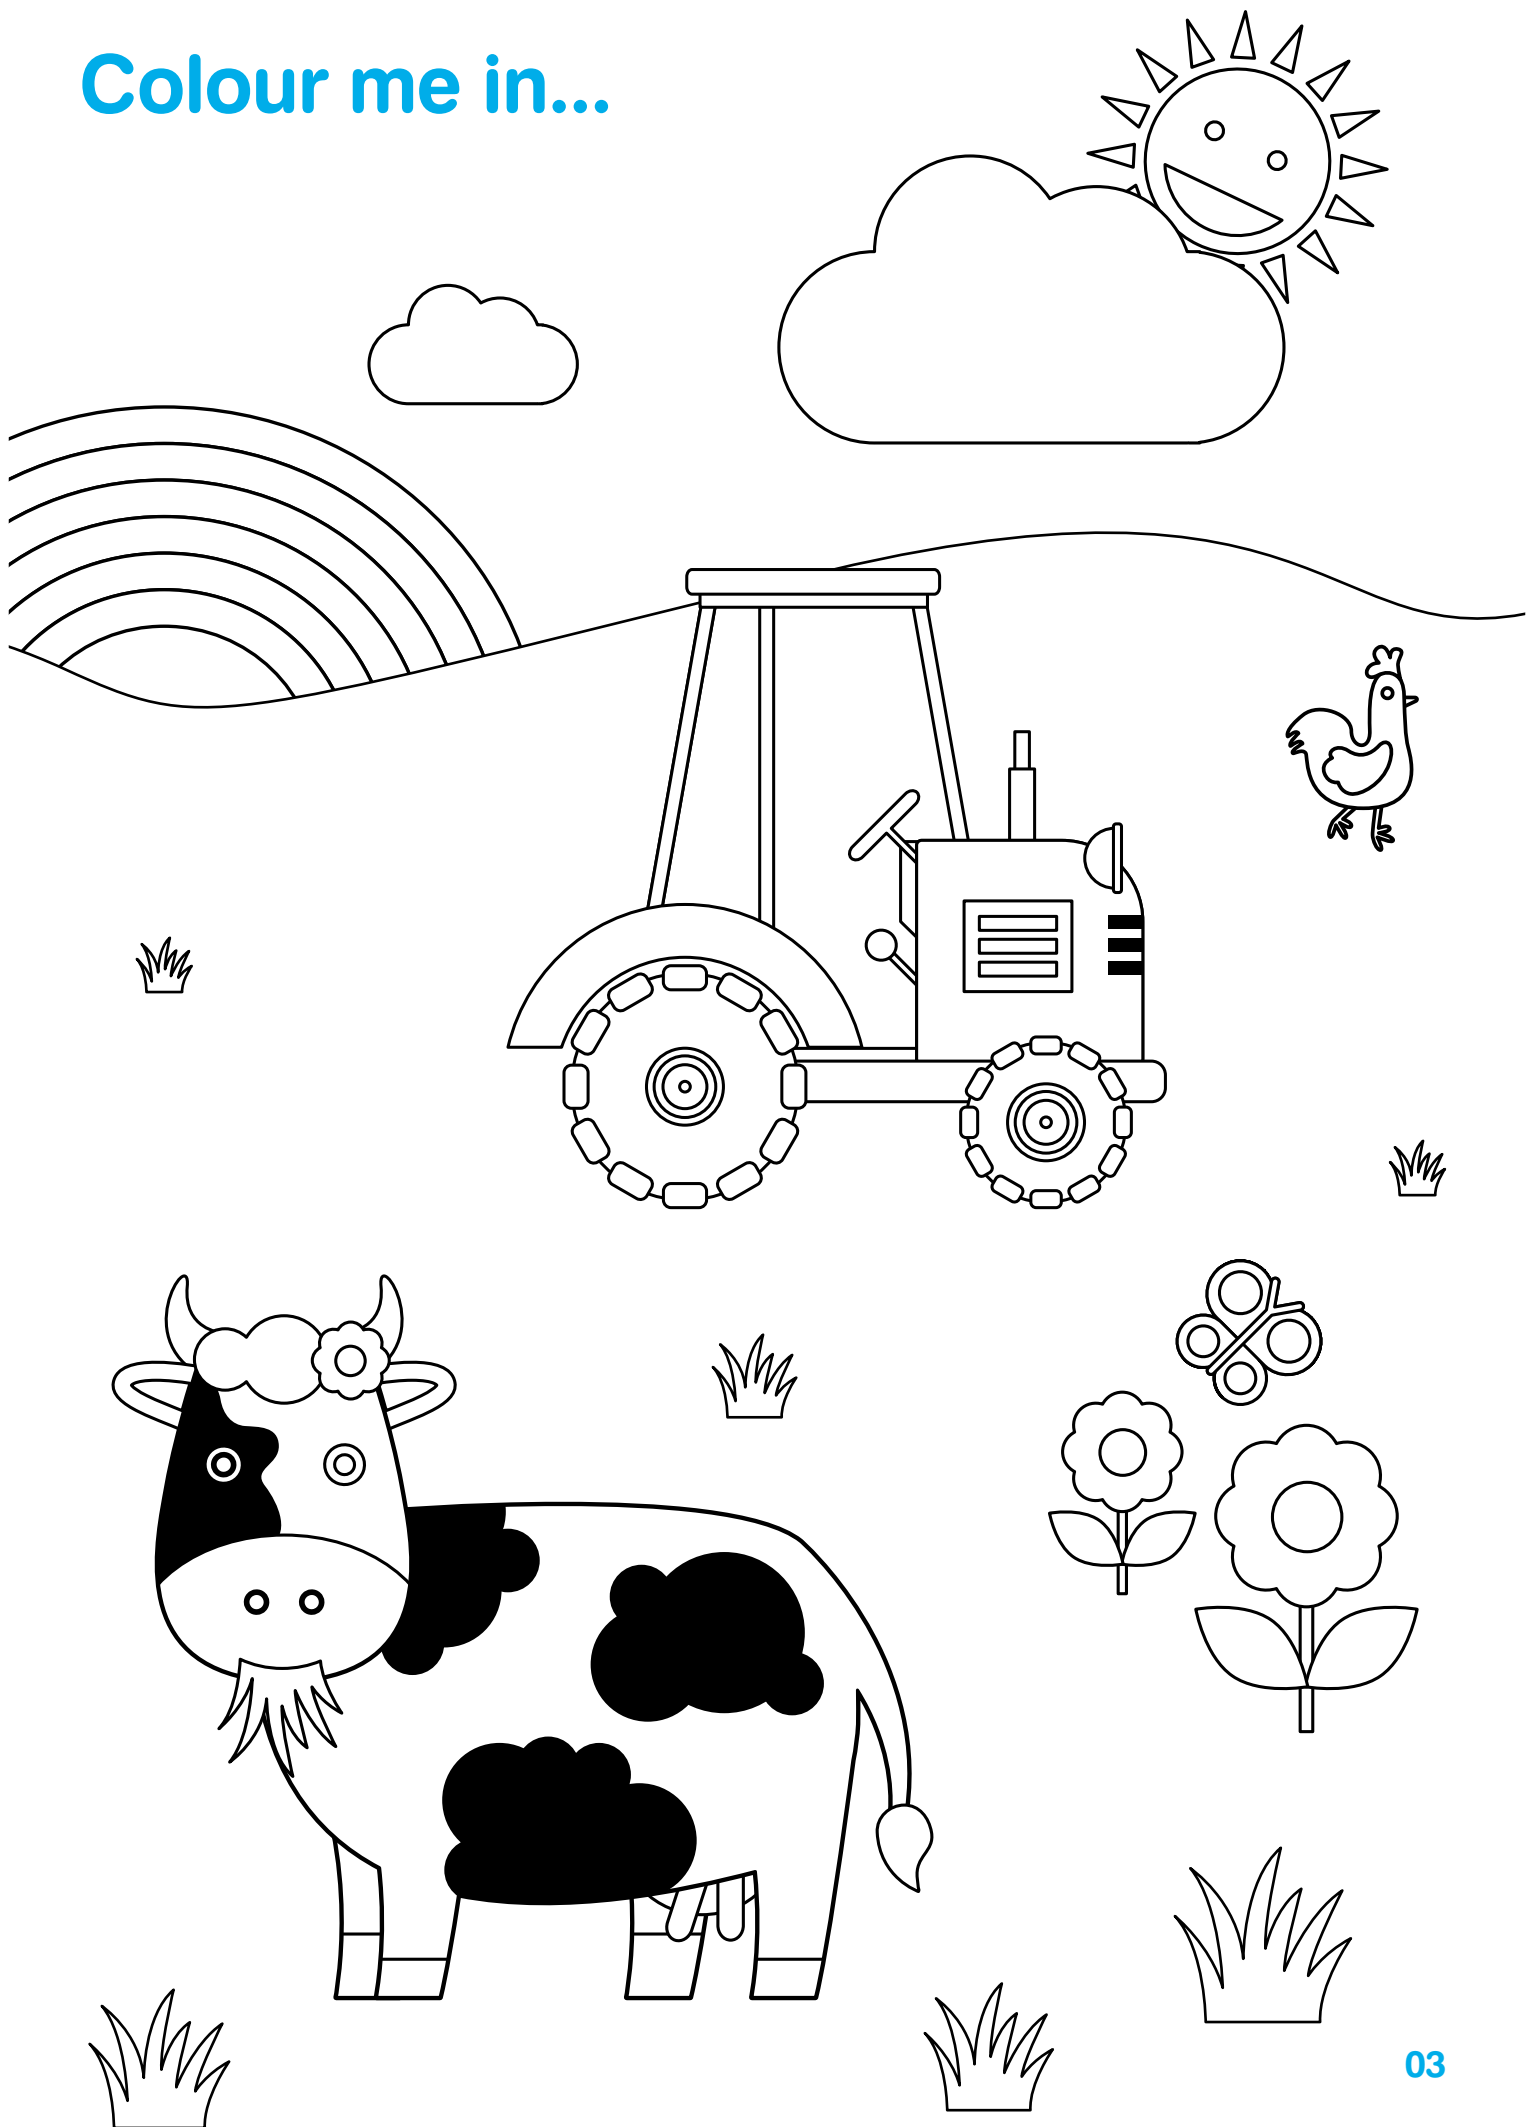

**We need the rain to fall and fill up the rivers and streams, lakes and reservoirs. When it rains the plants get a drink of water, the animals go to the rivers and streams to drink water.**

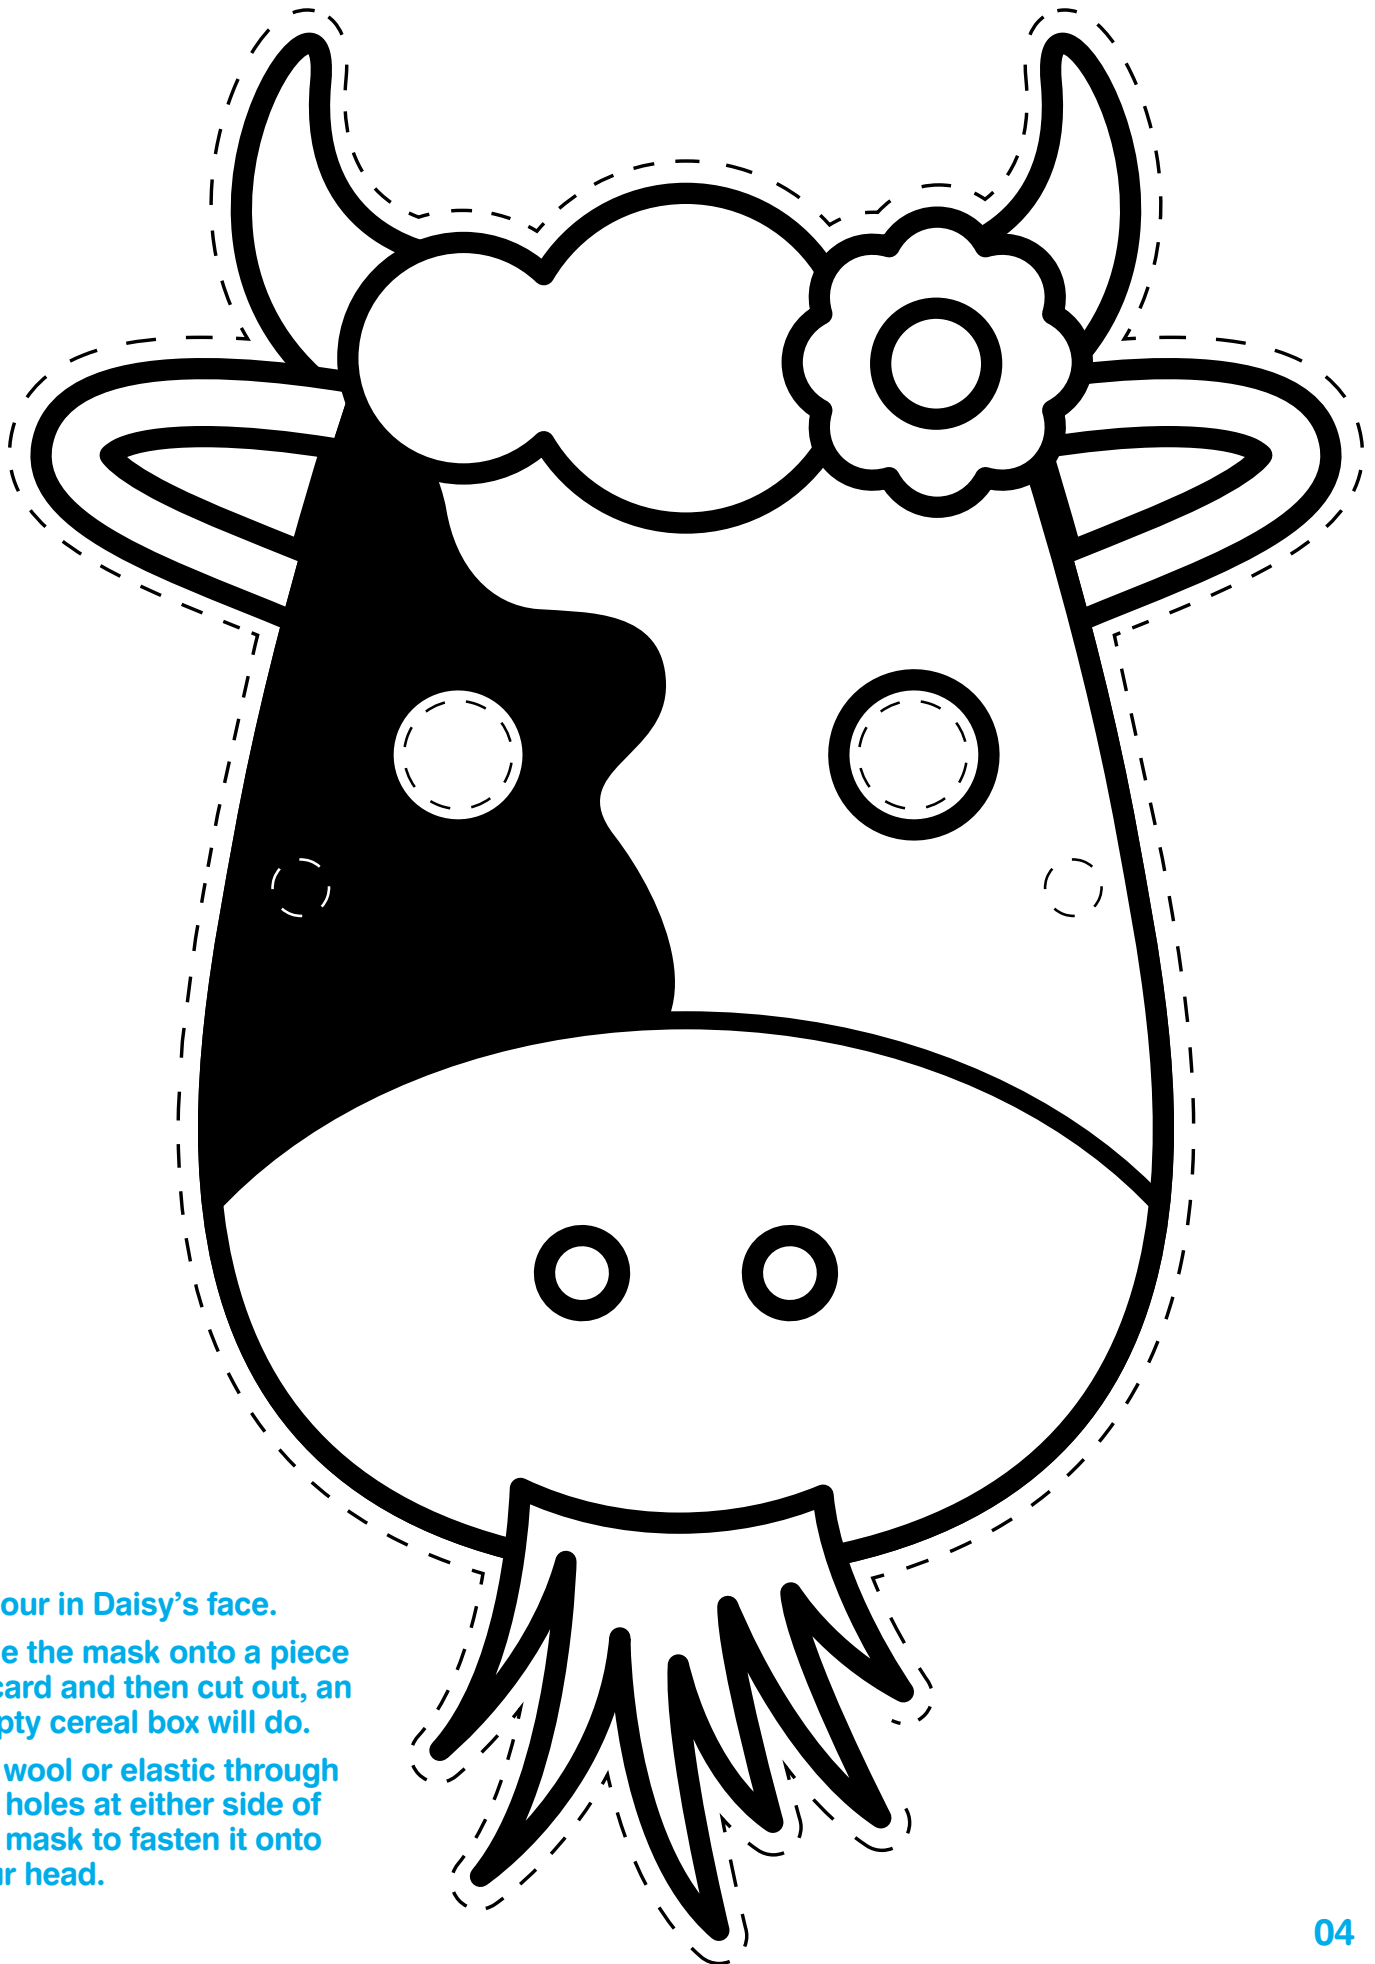

**Yorkshire Water clean the water from the reservoirs so it is safe and fresh for you to drink. It is then sent through our pipes to the taps in your kitchen and bathrooms.**

Colour me in...

# Cow mask

Colour in Daisy's face.

Glue the mask onto a piece of card and then cut out, an empty cereal box will do.

Tie wool or elastic through the holes at either side of the mask to fasten it onto your head.

# Spot the difference

Spot 5 difference in the pictures below.

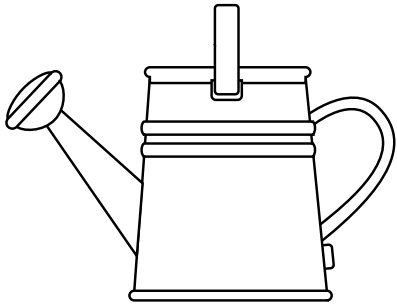

A window from the house is missing, A duck missing, 1 sheep is now black, the bird in the sky is missing, a tree is missing.

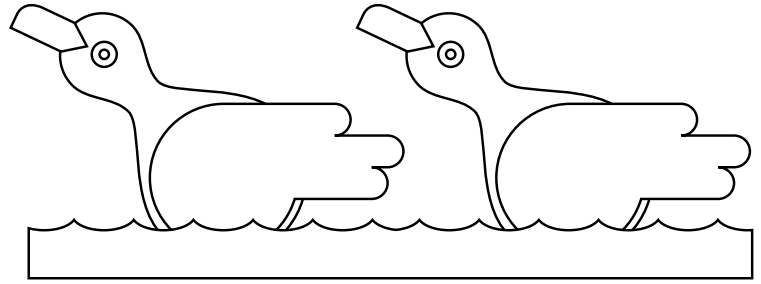

The answers!
